

Small and Medium-sized Enterprises in Northern rural regions

Economic development in rural regions – new thinking and policies in finding and exploiting endogenous capacities Oct. 2018; Vaxjö

B. Schuh OIR GmbH

Setting the Frame - Definitions

Small and Medium-Sized Enterprises in European Regions and Cities

Mapping and analysing territorial patterns and performance of SMEs in Europe

- Distribution patterns of SMEs across Europe (size, employment, sectors, economic weight, new SME start ups)
- •Contribution of SMEs to business development job creation and innovation with focus on creative/knowledge economy, ITC and low-carbon economy; key dynamics and drivers for SME growth
- Main opportunities, drivers and obstacles for SME growth in regions

Proposing territorial development strategies (targeting different regions) to further strengthen SMEs

- oldentify strategies to support SMEs in different types of regions/territories
- •Identify particular role of the public sector

ESPON SME project

ESPON SME project deals with

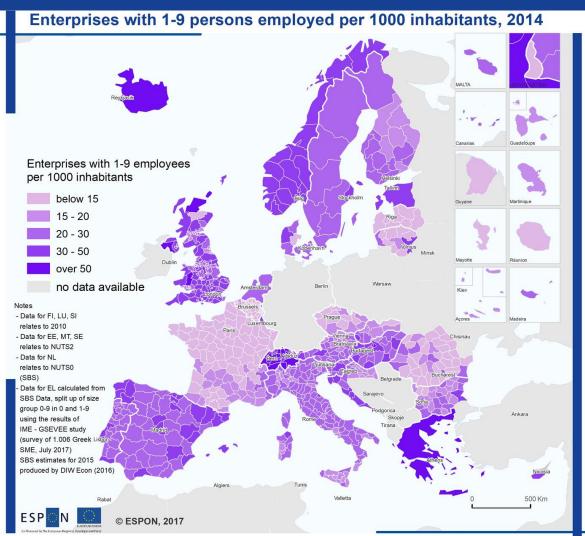

- Knowledge on the distribution patterns of SMEs across European regions
- •The extent and the ways SMEs contribute to business development, job creation and innovation
- •Policy support options for SME development to come

Small and medium-sized enterprises (SMEs) are often referred to as the backbone of the European economy, providing a potential source for jobs and economic growth

- micro enterprises: with less than 10 persons employed;
- •small enterprises: with 10-49 persons employed;
- medium-sized enterprises: with 50-249 persons employed;
- •small and medium sized enterprises (SMEs): with 1-249 persons employed;
- •large enterprises: with 250 or more persons employed.

SMEs – the drivers

What determines the expansion of microenterprise employment?

- education level and the component *governance quality* -> determinants for employment
- education is the most important driver for the performance of microenterprises

What determines the expansion of small and medium-sized enterprises?

governance quality plays a major role in the growth of small and medium-sized enterprises & the component *urbanisation* (the opposite of rurality and highly correlated with accessibility)

What determines enterprise birth rates?

accessibility (urbanisation) and governance quality drive enterprise birth rates
