Stages of the Blueprint for Sectoral Cooperation on Skills

Success factors:

- ✓ A healthy mix of business, industry, education & training providers, chambers, trade organisations
- ✓ Addresses skills shortages and unemployment
- ✓ Develops a sector skills strategy, concrete VET solutions, and a long term action plan
- ✓ Makes use of EU tools e.g. EQF, ESCO, Europass, ECVET, EQAVET

Stages of the Blueprint for Sectoral Cooperation on Skills

Success factors:

- ✓ Strategies and actions have been adapted to the national or regional context
- ✓ The fields of business, education, training, research and public authorities are working in close partnership
- ✓ Promotion and dissemination feed back to EU-level, national or regional policies, initiatives and intelligence tools

Stages of the Blueprint for Sectoral Cooperation on Skills

Selection of sector

EU Skills Alliances

**National/
regional
partnerships**

Funding

EU Partnerships:

Erasmus+ Sector Skills Alliances, COSME, EMFF, other possibilities in the future

National roll-out:

ESF, ERDF, national/regional, private funding

New initiative in Erasmus+ : Centres of Vocational Excellence

Regional development,
Smart Specialisation,
Knowledge triangle

Governance
(social partners, national and local governments VET providers, development agencies...)

Providing both Initial and continuing VET at all EQF Levels

Innovative curricula, & Teaching & training methodologies
(PBL, Interdisciplinary...)

Cost-sharing, sustainable funding, and effective use of EU funding

Vocational Excellence

Higher VET, and Flexible pathways with Schools and Universities

Technology diffusion and Innovation Hubs

Quality assurance
feedback loop, learner tracking

Incubators supporting entrepreneurial initiatives

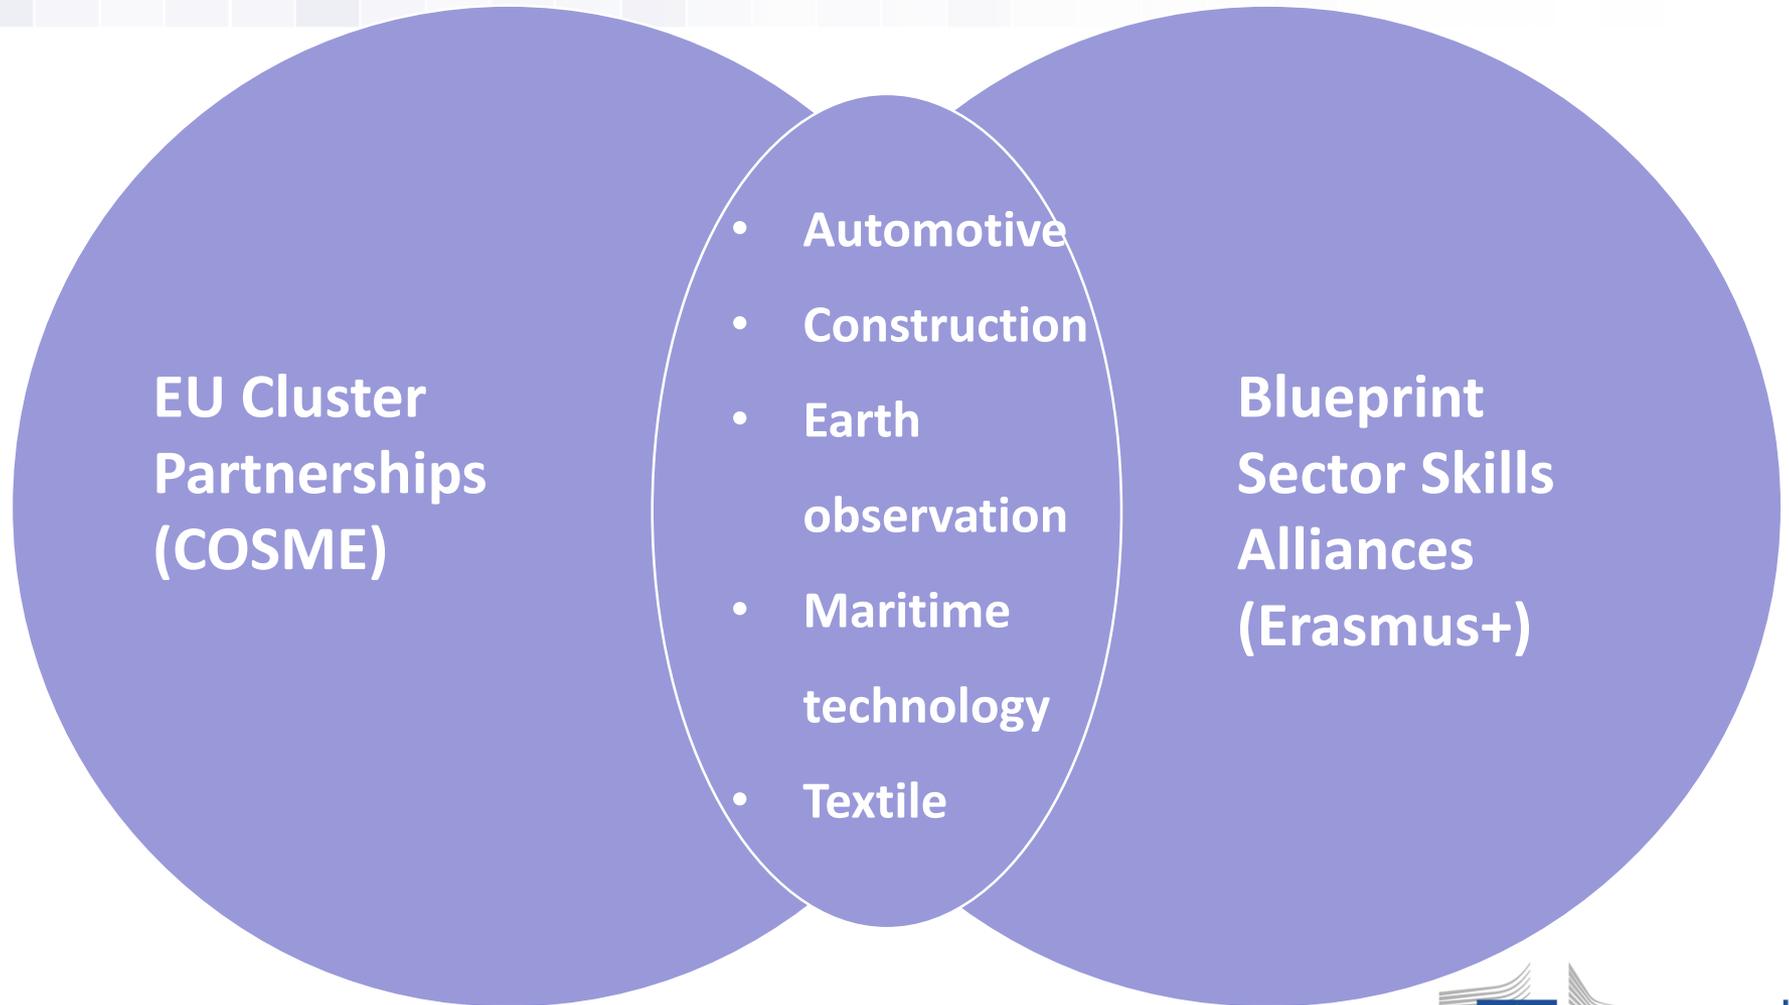

Partnerships for: *Skills anticipation, Apprenticeships, T&T exchanges...*

Validation and Guidance

Synergies between Regional Clusters and Blueprint Sector Skills Alliances

A smarter Europe by promoting innovative and smart economic transformation

Enhance R&I capacities and uptake of advanced technologies

Digitalisation – for citizens, companies and government

A smarter Europe

Development of skills for smart specialisation,

Competitiveness and growth of SMEs

Interregional cooperation in value chains

European Commission

Searching for Synergies between the “Smart specialisation pilot action for interregional innovation investments” (ERDF) and “Blueprint Sector Skills Alliances” (Erasmus+)

- Pilot action is focusing on 8 interregional cooperation partnerships
- Set-up in thematic areas to scale-up efforts in interregional value-chains.
- The Commission will feed the lessons learned from this pilot into the reflection on how to best support interregional partnerships in the post 2020 framework

PARTNERSHIP	RECOMMENDED FOCUS – LEVEL OF GRANULARITY	SUPPORT SERVICES TO BE SOURCED
De- and Re-Manufacturing (DMR)	Operationalisation of the two Business Cases 1) Composite recovery from wind energy systems and 2) e-motors and e-mobility batteries re-manufacturing	Business Modelling, Financial advisory and Legal (IPR/Contractual) support; Blueprint SSA 2017 Automotive + Blueprint SSA 2018 Additive Manufacturing: coordinator + partner contact details (EMPL) <i>done;</i>

		Blueprint SSA 2019 Batteries will not start before 2019/2020
Bio-Economy (BIO)	Operationalisation of the business case 3) Bio-based aromatics (Bio-aromatics)	Business Modelling, Regulatory compliance (REACH) and Legal (IPR) support
Marine and Renewable Energy (MRE)	Operationalisation of the business case 4) Sensing & Remote Monitoring in Marine Renewable Energy facilities	Legal (IPR), regulatory (GDPR), regional funds expertise and brokerage/networking support; Blueprint SSA 2017 Maritime Technology: coordinator + partner contact details (EMPL) done
Sustainable Building (BUILD)	Operationalisation of the business case 5) "Smart Campuses"	Provision of technical (data) expertise and legal (procurement) support
High-tech Farming (FARM)	Operationalisation of the business case 6) Digital Platform for agritech solutions	Regulatory (GDPR), technical (data) expertise and legal (contractual) support
Traceability and Big Data (TRACE)	Selection and operationalisation of 2 most promising Business Cases under the	Regulatory (GDPR), technical expertise (traceability and data)

	two Pilots <i>Agri-food products traceability (packaging/environmental impacts)</i> and <i>Wine products traceability</i>	and legal (contractual) as well as business modelling and financial advisory support
3D-Printing (3DP)	Selection and operationalisation of 2 most promising Business Cases under the Pilot on <i>Additive-Subtractive Manufacturing</i>	Identify the most relevant certification organisations in Europe (EMPL) <i>done</i> ; Blueprint SSA 2018 Additive Manufacturing: coordinator + partner contact details (EMPL) <i>done</i> ; regional funds expertise, business modelling and financial advisory support
Cybersecurity (CYBER)	Operationalisation of the Business Case 7) Acceleration Programme for cybersecurity scale-ups	Business acceleration expertise, business modelling and financial advisory support
