

ESPON support for Targeted Analyses

Ilona Raugze

Director

ESPON EGTC

*14 November 2017 ESPON EGTC workshop
“Targeted Analysis in support of better policy-making in cities and regions”*

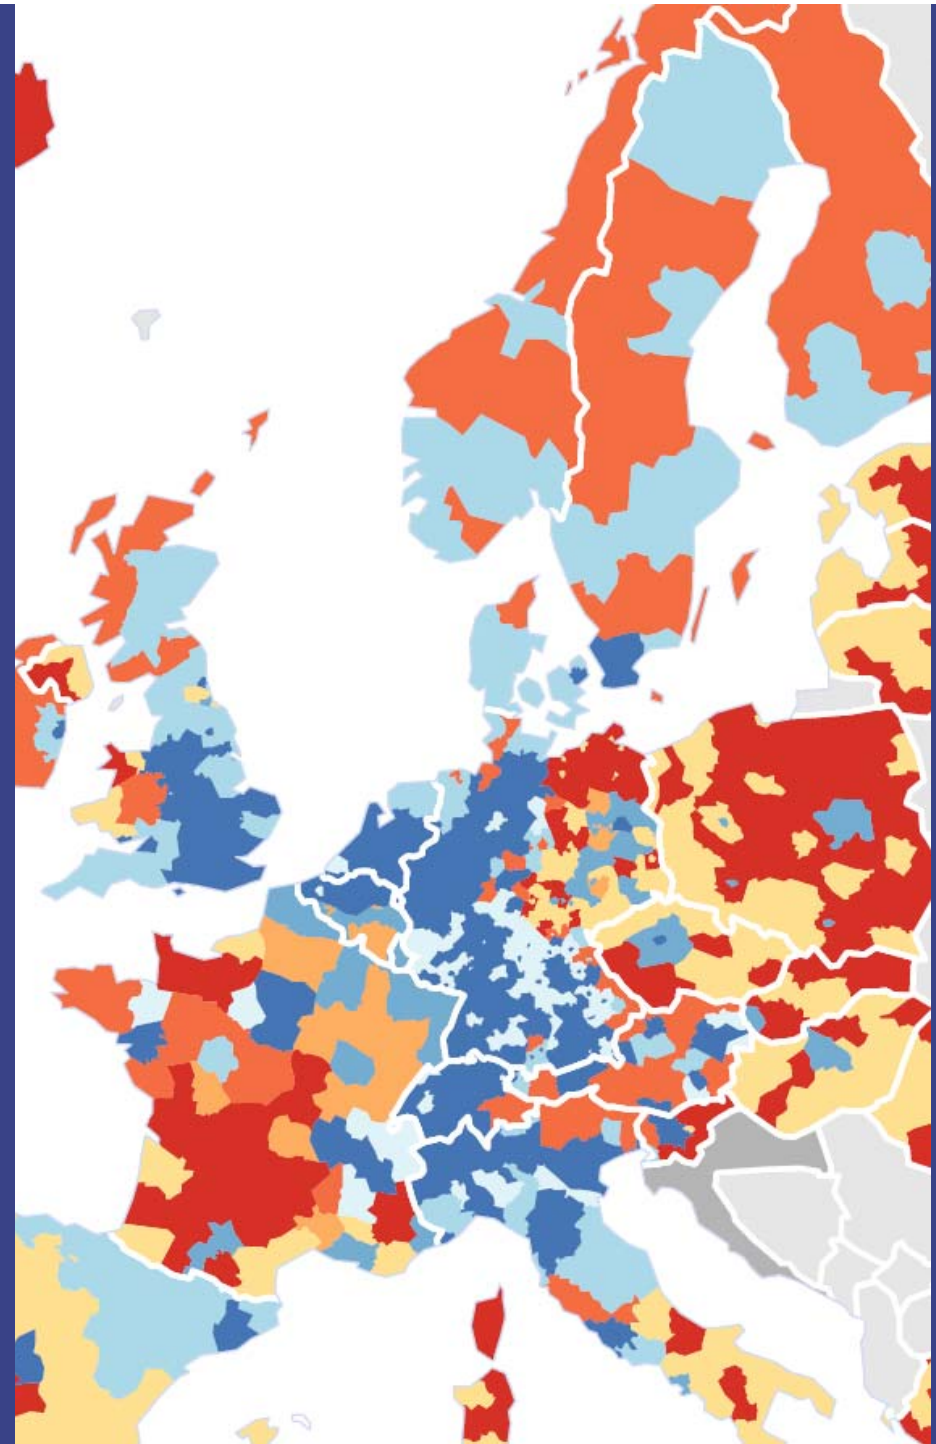

Inspire policy making with territorial evidence

Strategic principles and added value

- Directly serving **policy demand**
- Delivering **rapid response**
- Promoting **institutional/ policy-making capacity and cooperation** of stakeholders
- Promoting **dialogue** among researchers and policy-makers

Some
achievements
from ESPON 2013

POLYCE – metropolitan regions

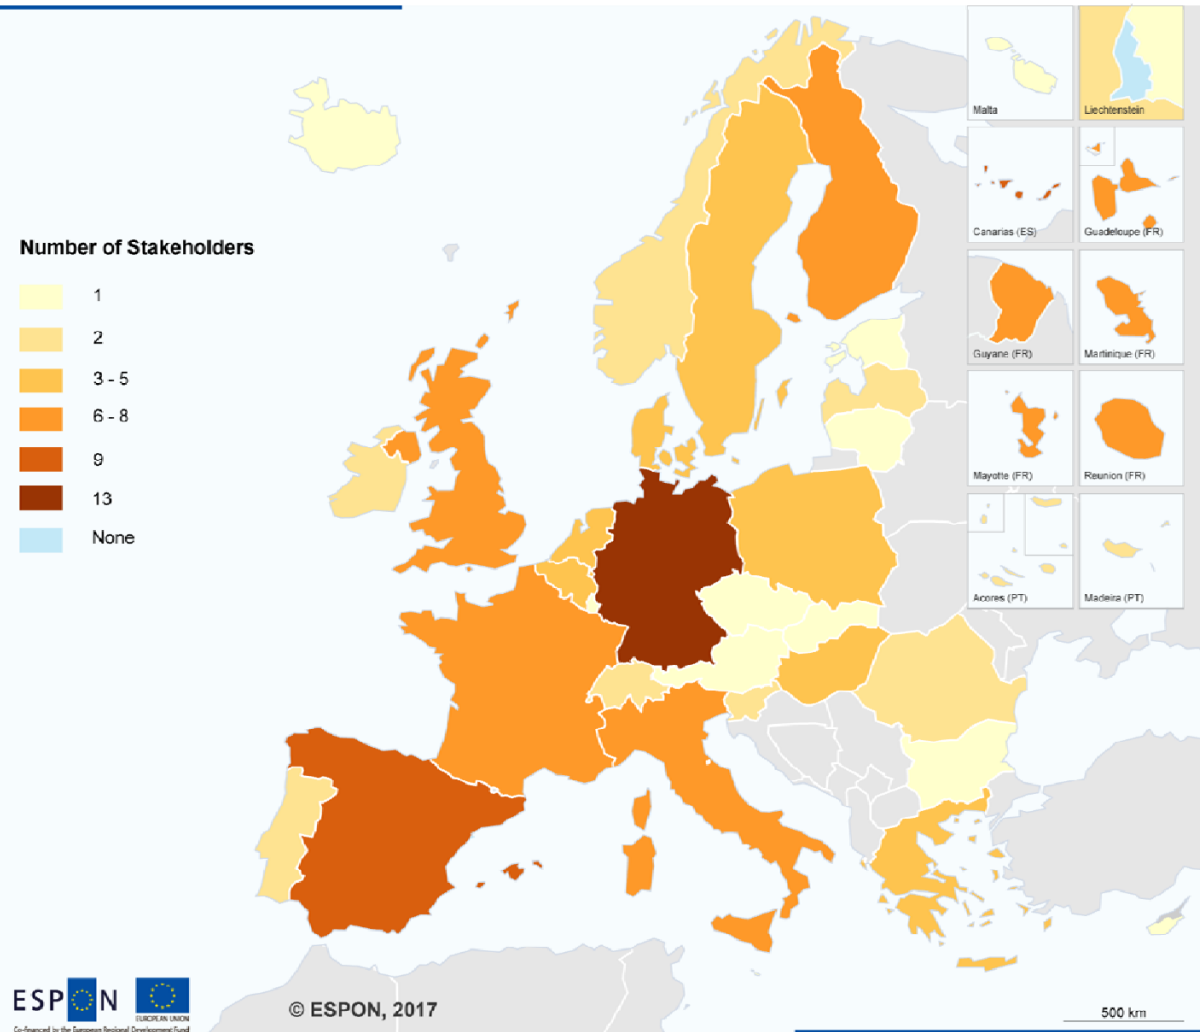

- Bratislava, Budapest, Ljubljana, Prague, Vienna
- Characteristics and profiles of the involved metropolises
- Ideas for individual future “metropolitan agendas”
- Proposals for metropolitan cooperation in a polycentric network
- Results applied for the development of territorial development strategies/plans, e.g.:
 - Bratislava’s new spatial plan
 - Smart City Wien Framework Strategy
 - Smart Twin Strategy Bratislava-Vienna
 - New strategic plan of Prague
 - Operational Programme Prague 2014-2020.

TeDi- Territorial Diversity in Europe

- National authorities from Norway, Finland, Switzerland, Cyprus, Sweden, Malta, Romania
- Causalities between territorial specificities and the constraints and opportunities for economic and social development
- Specific territorial potentials of insular, sparsely populated and peripheral regions
- Ideas for future policy actions aiming to take full advantage of the specific potentials
- Results applied:
 - Regional development strategies
 - Spatial planning documents
 - Local strategic documents
 - Macro-regional strategy for North Sea region

Geographical coverage of targeted analyses during ESPON 2013

ESPON 2013, Stakeholders, Targeted Analyses

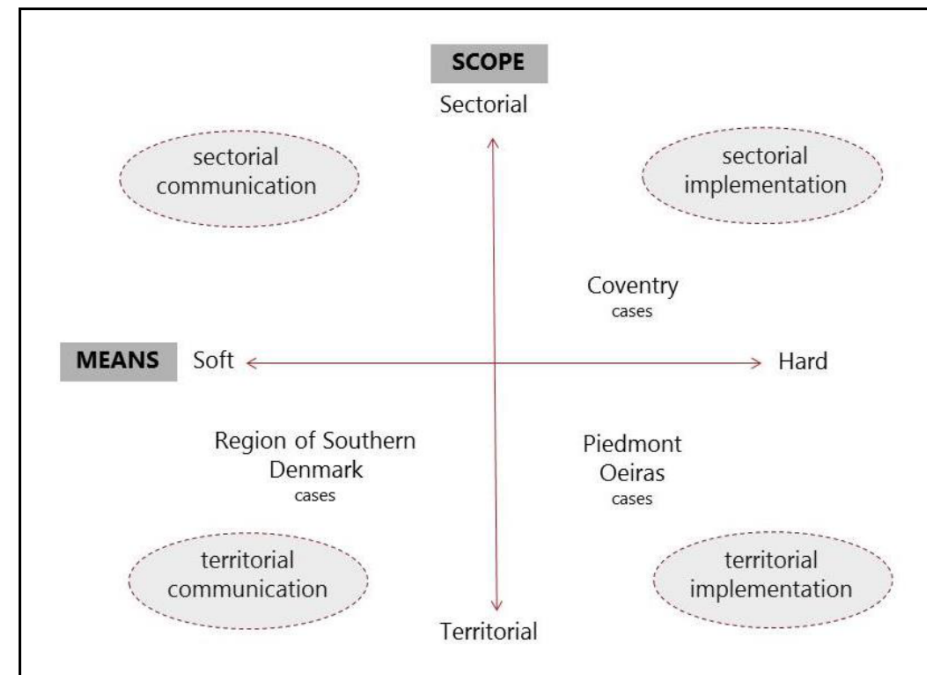

**First results of
ESPON 2020
Targeted analyses**

Regional strategies for sustainable and inclusive territorial development (ReSSI)

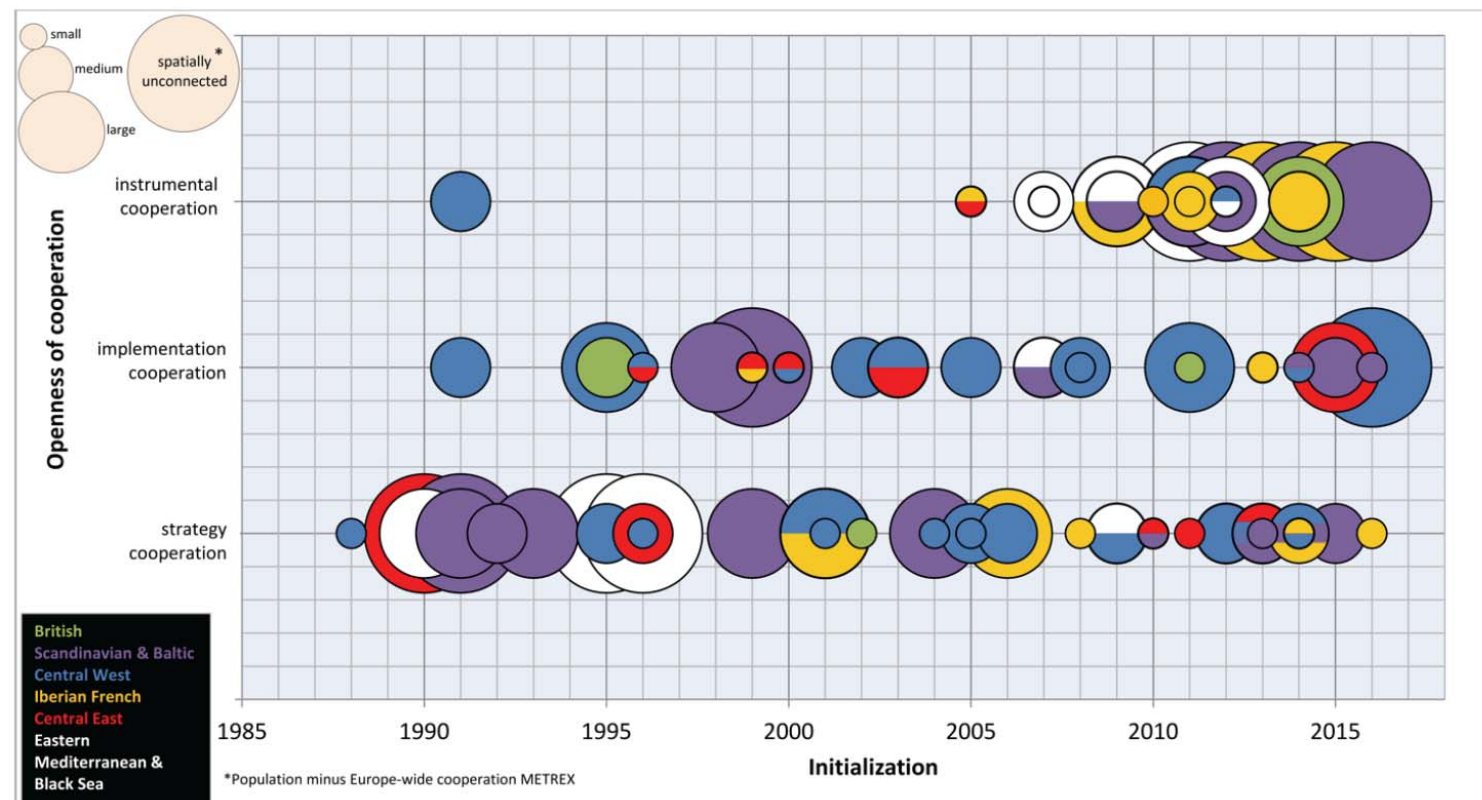

- Practices for aligning the ever-evolving institutional configuration with emerging logics and challenges of regional planning:
from hard (legislation, funding) to soft means (communication, coordination)

Figure 9.1: Typology of stakeholder strategies: means and scope

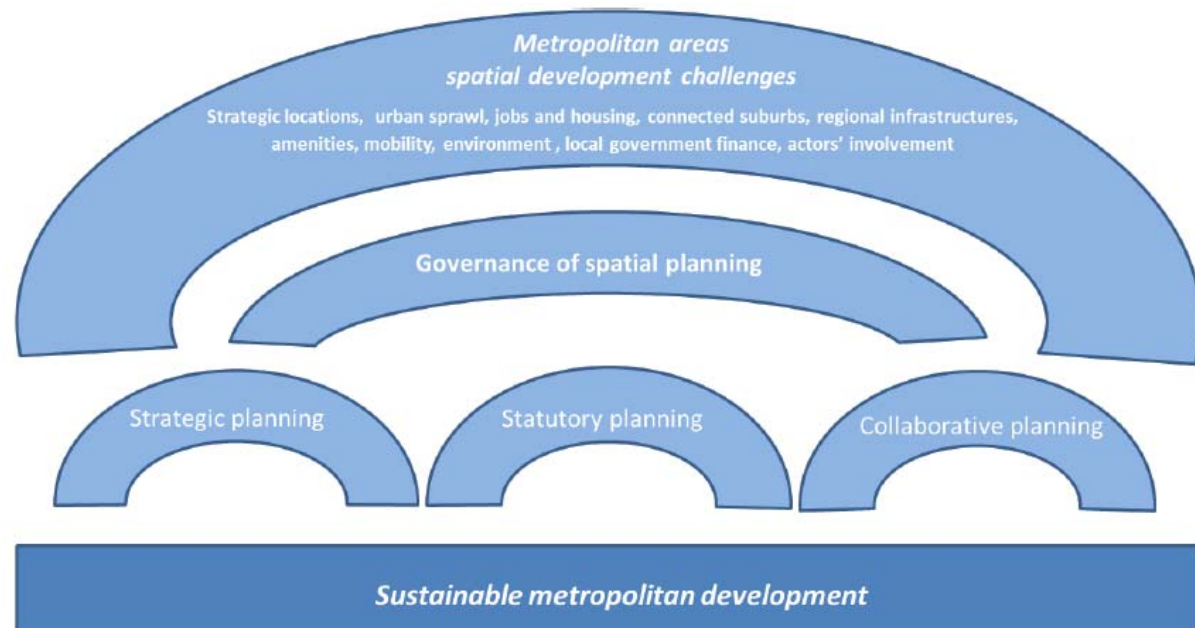

Thinking and planning in areas of territorial cooperation (Actarea)

- Promoting new forms of soft governance spaces with fuzzy, flexible boundaries that span across administrative boundaries and link urban and rural development policies

Spatial dynamics and strategic planning in metropolitan areas (SPIMA)

- How should traditional urban planning practices respond to ongoing urbanization trends that go beyond the core-centric spatial patterns and beyond the jurisdictions of a single administrative authority?
- Key elements for managing metropolitan areas: strategic, statutory and collaborative

Targeted analyses in process

Linking protected areas to territorial development - networks of high-biodiversity

Territorial scenarios for the Baltic Sea Region

Territorial and urban potentials connected to migration and refugee flows

Alps2050 – Common spatial perspectives for the Alpine Space. Towards a common vision

Cross-border Public Services

Future Digital Health in EU

Cultural Heritage as a strategic territorial development resource

Territorial Impact Assessment for Cross-Border Cooperation

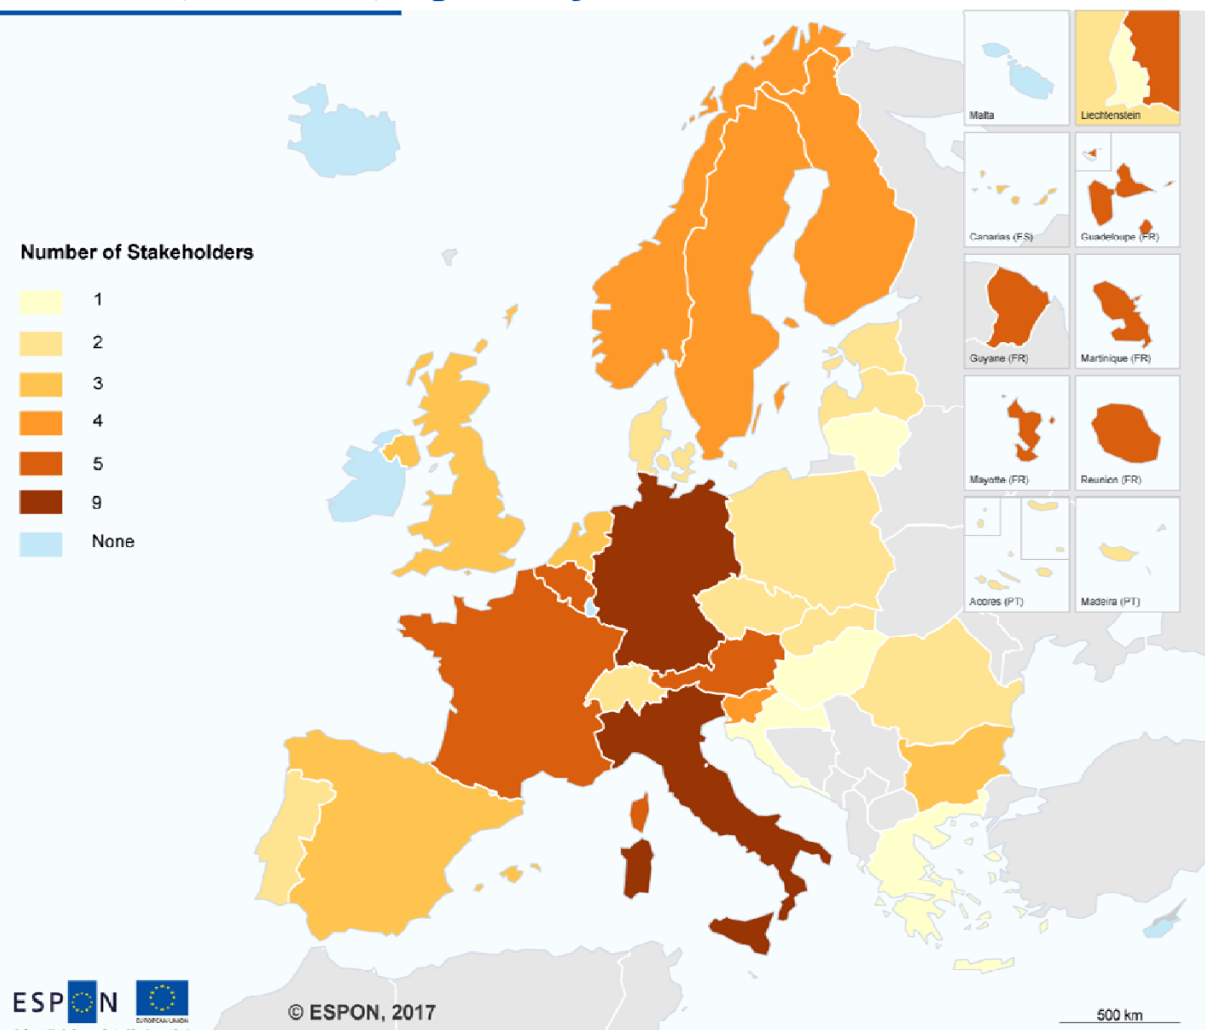

Maritime spatial planning and land-sea interactions

Potentials of big data for integrated territorial policy development in the European growth corridors

Improving Urban-Rural connectivity in non-metropolitan regions

Geographical coverage so far...84 stakeholders

ESPON 2020, Stakeholders, Targeted Analyses

What's next...

- ***Do not miss it!***

11 more activities to be selected during ESPON 2020 (6 in 2018 and 5 in 2019)

- ***Next cut-off dates***

26 January 2018 and June 2018

- ***Peer learning workshops***

Stakeholders as ambassadors and multipliers...
