

ESPN Seminar “New Narratives for Territorial Development”

Vienna, December 5th 2018

“Rethinking European Futures” A Structured Open Space workshop

The Territorial Agenda post-2020 as a framework for action

Two complementary policy pathways

Bottom up visions

- Empowerment of local and regional players
- Acknowledging the European diversity

Cooperation

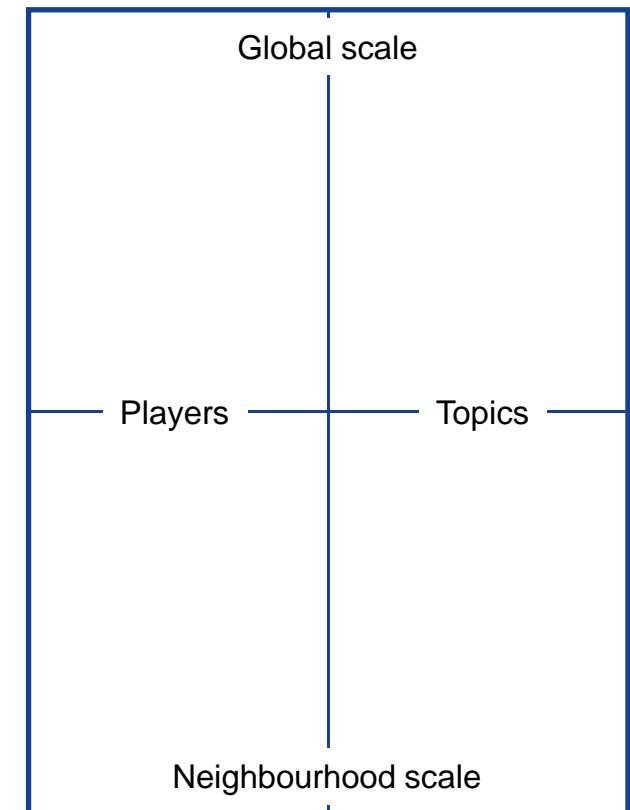

- Enabler to respond to challenges and address opportunities
- Cooperation between places, policy sectors and societal groups
- Cooperation is more than Interreg

Key questions for the structured open space workshop

To overcome the three key challenges:

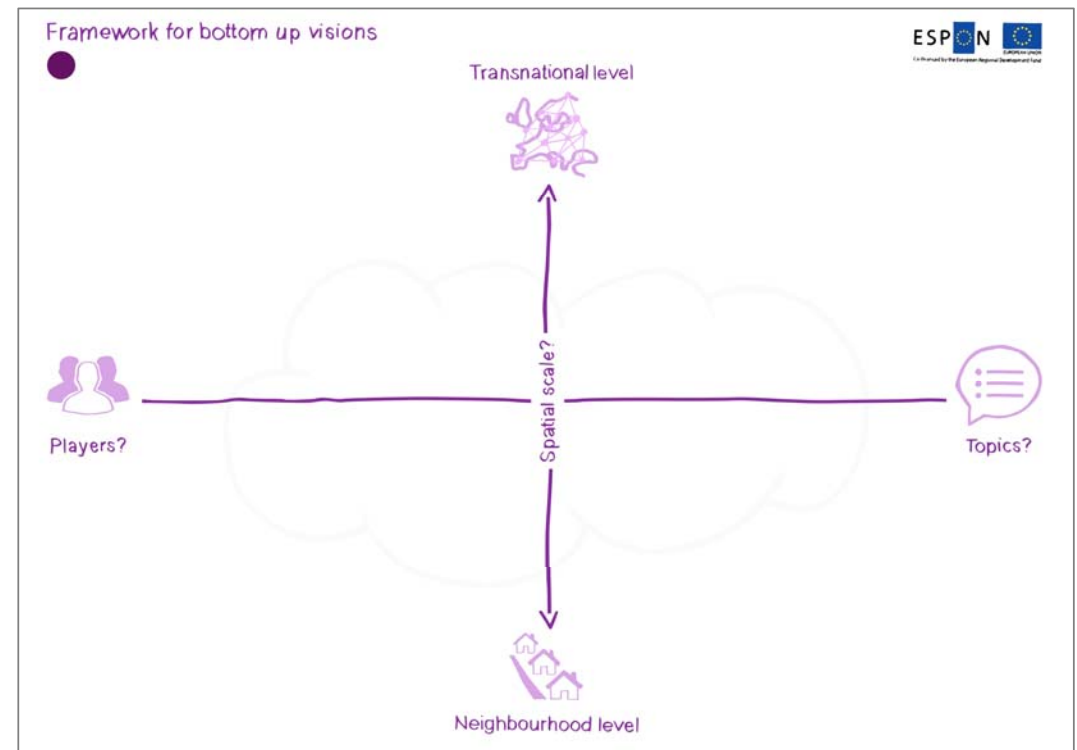

- Which players need to cooperate,
- ...at which spatial scales, and
- ...on which topics?
- Which players need to develop bottom-up visions,
- ...at which spatial scales, and
- ...on which topics?

1. Framework for bottom up visions (15 min)

Visions enable local and regional players to link their places to a European/transnational context.

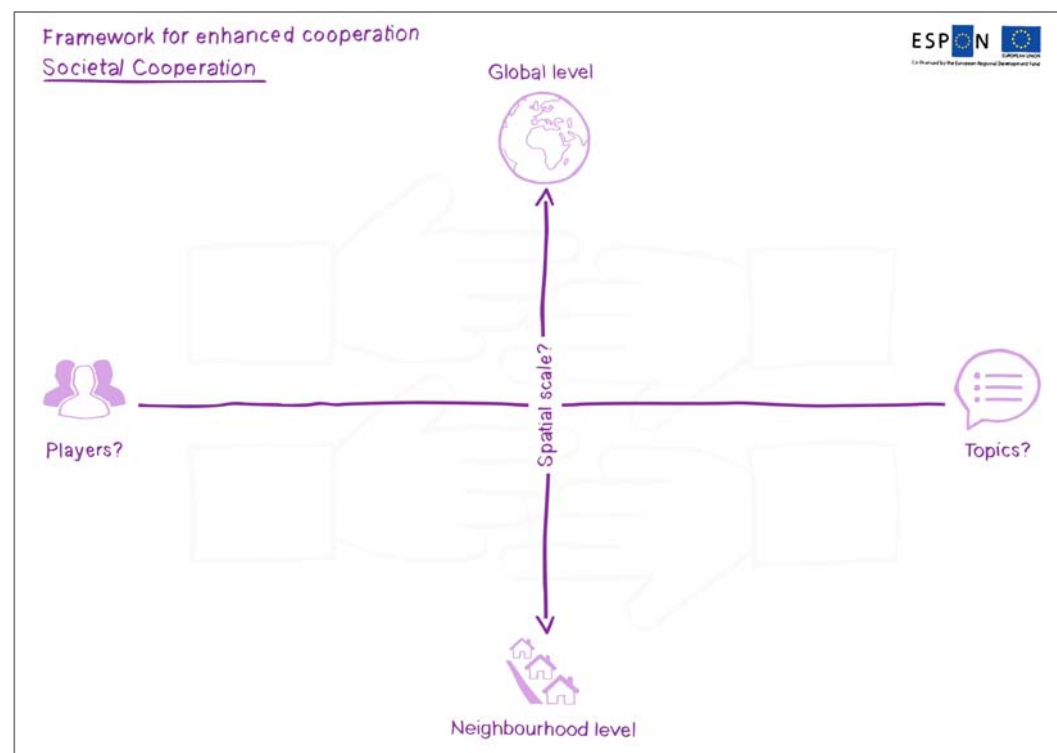

- Which examples do you know?
- ... involving which players?
- ... at which spatial scales?
- ... on which topics?

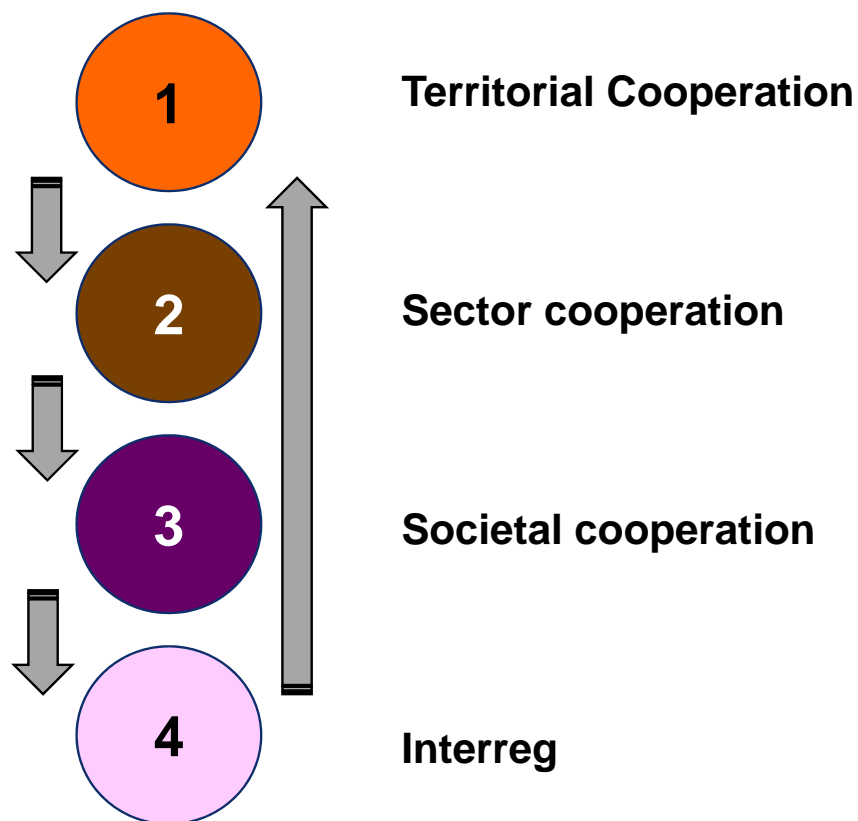

2. Framework for cooperation

Cooperation allows to deal with interdependencies and overcome fragmentation and misalignment.

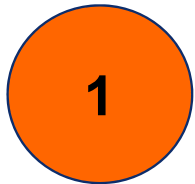

- Which players need to cooperate?
- ...at which spatial scales?
- ...on which topics?

2. Framework for cooperation (4 x 10 min)

Please go to the station of „your colour“

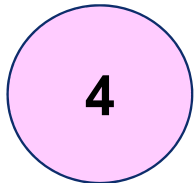

Bottom-up visions (Maria Toptsidou)

Bottom-up visions (Christian Lürer)

Bottom-up visions (Kai Böhme)

Bottom-up visions (Erik Gløersen)

Joint wrap-up in the plenary (X1 / G ?)
