Bulgaria	Spatial typologies	Functional region	Regional and geographical information Work on compliance of regional statistics is speeded-up in 2001. Data provision for the regional plans at statistical level 2 is a priority (in national and European aspect), while in certain thematic fields (such as demography, social and environment statistics) data are provided up to statistical level 5. The latter form a core list of indicators for the urban statistics. Regional GDP has been calculated up to level NUTS3 at basic prices for the period 1996-1999. Work goes on in the direction of extending the time series with final data up to 2000 and improving data for the wages and salaries, which are used as a regionalizing indicator. With the new decision of								Ms Zlatka Vassilova Ormanova, Head of subdivision Regional Development, Ministry of Regional Development and Public Works, 17-19 St. Kiril i Metodii Str. Bulgaria	Population	Population structure	POPULATION AND DEMOGRAPHIC PROCESSES 2001 The publication contains time series of statistical data on vital statistics for a period covering the latest fifty years. This gives the opportunity for in-depth and professional study of demographic processes taking place in the country. Data about marriages, births, deaths, divorces and internal migration are linked with the main demographic characteristics of the persons, whom demographic phenomena refer to. The edition also contains calculated specific indicators about demographic processes. In a territorial aspect data about population and demographic processes by districts are shown in a separate section. The								Ms Zlatka Vassilova Ormanova, Head of subdivision Regional Development, Ministry of Regional Development and Public Works, 17-19 St. Kiril i Metodii Str, BG-1202 SOFIA, +359 2 987 1701, +359 2 987 2517 http://www.nsi.bg/	zormanova@mnrp.government.bg publikaci@nsi.bg
Bulgaria	Employment and labour Market	Employment and sector structure	EMPLOYMENT AND UNEMPLOYMENT The bulletin contains the main results of sample labour force surveys based on households. It includes data on economic activity, employment and unemployment of the population at the age 15 and over by socio-demographic characteristics, economic activities, employment status, causes and duration of unemployment, ways of job search, etc. Data about employed and unemployed persons by gender and residence are also presented at district level. Periodicity - 4 times a year Bulgarian / English ISSN: 1311 - 2309 Cat. No. 2213 Vol. ca 120 pages Size: 20x10cm								Ms Zlatka Vassilova Ormanova, Head of subdivision Regional Development, Ministry of Regional Development and Public Works, 17-19 St. Kiril i Metodii Str, BG-1202 SOFIA, +359 2 987 1701, +359 2 987 2517 http://www.nsi.bg/	zormanova@mnrp.government.bg publikaci@nsi.bg

Ireland	Transport	Travel to work	Travel to work	Quarterly National Household Survey 2000 - travel to work	Format PDF file	Occasional	NUTS 3	Questions on travel to work were included in the Quarterly National Household Survey (QNHS) in the three months from December 1999 to February 2000. While the primary purpose of the QNHS is to collect information on employment and unemployment, questions on travel to work are asked from time to time. The questions were asked of all persons in employment in the week prior to the survey. Questions included usual method of transport to work, time leaving the home to travel to work, distance of journey, vehicle ownership, carrying passengers etc.		Costs: PDF File may be downloaded free of charge. Ireland	Agriculture	Farmer Structure	Agriculture in the Republic of Ireland		Primary Source: Dept. of Geography, NUI Maynooth, Maynooth, Co. Kildare, Ireland Web Site: www.may.ie/academic	1999	LAU 2	Irish agriculture in transition a census atlas of agriculture in the republic of Ireland 1999 This Atlas of Agriculture was compiled from three main sources of information. firstly 1991 Census of Agriculture, the information for which came from small area units or DEDs (NUTS V). Secondly, some agricultural statistics are updated annually from Central Statistics Office (CSO) surveys and, where possible, these are used in the accompanying regional statistical tables to track the 1991-1997 trends. Thirdly, where possible, use is made of administrative data supplied by the Dept. of Agriculture and Food to quantify the uptake and spatial distribution of selected policy measures. The atlas consists over 100 maps accompanied by a descriptive commentary, together with statistical tables that summarise the numerical data at the level of the Regional Authority areas.		Costs: Euro 45.00 Copyright: Authors: Séamus Lafferty, Patrick Commins and James A. Walsh	Contact: Dept of Geography E-Mail: geography.department@may.ie Phone: + 353 1 708 3610 Fax: +353 1 708 3573	
Ireland	Social Situation	Poverty	Social change, poverty	Regular releases from the Economic and Social Research Institute (ESRI) give national poverty measurements and are available from The Irish Social Science Data Archive based in the Dept. of Social Science, University College Dublin (UCD) Belfield, Dublin Ireland. The European Community Household Panel Survey is the most accurate long-term historical measure of poverty levels in Ireland.	Primary Source Collection: The Economic & Social Research Institute, 4 Burlington Road, Dublin, Ireland Primary Source Access: The Irish Social Science Data Archive, Room B012, ISSC Building, UCD, Belfield, Dublin 4, Ireland. Web Site: www.ucd.ie/issda Web Site: www.esri.ie	Regular Updates		Format: Survey Results	Availability: No possibility for single researchers obtaining data due to the rules determined by EuroStat governing availability. An institution or organisation is able to purchase the data providing access for all researchers.	Costs: European Community Household Panel Survey data costs Euro 400 for Core data from 1994-1996, for additional waves from 1997 and 1998 and Euro 100 per panel. A single wave from 1994 - 1998 costs Euro 150. Plus all data supplied on CD costs Euro 31.75 or Euro 6.35 for students. Copyright: ESRI	Contact: ISSDA - James P. Ireland	Housing	Buildings	Housing & households	The Quarterly National Household Survey began in 1997 replacing the annual April annual Labour Force Survey (LFS). The purpose of the survey is the production of quarterly labour force estimates and occasionally reports on social topics such as Housing and Households. The most recent data for Housing and Households was collected in the June - August 1996 quarter. The main topics in the housing module were: characteristics of the building, number of rooms, type of building, nature of occupancy, mortgage costs, problems and level of satisfaction with the accommodation, facilities such as heating, neighbourhood characteristics and noise pollution. Norway	Other Data	Other data	"A numerous amount of reports have been where the data have been published. Difficult to go into specifics." "Theoretically, statistics on any subject that includes an address can be made available on grid, as every address has been precisely placed. This means that every subject covered by population statistics and any other register covering the entire population, and statistics on enterprises can theoretically be shown on grid. There are however strict limitations on the actual possibilities due to protection of individual rights and enterprises. Statistics Norway has not stated what statistics they will make available on grid, but they have made maps on population and enterprises."

Sweden	Public Sector	Institutional Structures	Institutional structures	Sweden is a constitutional monarchy with a parliamentary form of government based on a one-chamber legislature. The Prime Minister is the head of the cabinet and the minister of industry is responsible for regional policy and development. Sweden is then divided in 21 counties (NUTS) with two levels – the County Administrative Board (Länsstyrelsen) that administrate the government's policy at county level and the County Council (Landstinget) that is responsible for medical care, regional traffic and other matters that are too large in scope for the municipalities. The local level is represented of the municipalities and Sweden consists today of 289 municipalities (NUTS5) with its own governments. Their responsibilities include zoning and city planning, much of the educational system, social welfare, including elderly and child care, fire protection, recreational and cultural amenities.
